

Hi, My name is Shalane Lewis and I have been a part of CBS Soccer Association for over seven years as a coach and team manager, and as a parent. I've seen firsthand how important this club is to our kids and our community. Soccer isn't just about the game—it's about teamwork, confidence, friendships, and creating a space where every player feels supported and valued. That's why I'm running for President. I want to take the teamwork and community that I have built at a team level up to the club level.

I want to help build a strong, welcoming soccer community where families feel heard, volunteers feel appreciated, and players have the best experience possible. Transparency is really important to me—I believe parents and coaches should always know what's happening with the club, and decisions should be made with the best interests of our players in mind.

Outside of soccer, I've spent years volunteering with organizations like Scouts Canada and the CIBC Run for the Cure. As Run Director, I led a team to organize a major fundraising event, making sure everything ran smoothly while following policies and meeting fundraising goals. That experience has given me the skills to organize, lead, and bring people together to work toward a common goal—just like I hope to do for our soccer club.

I care deeply about this club and want to see it grow in a way that benefits everyone. If elected, I will focus on open communication, building a strong volunteer base, and making sure every player who wants to play soccer has a great experience. I'd love the opportunity to give back and help shape the future of our club!

Thanks so much

Shalane
